

NEWS BRIEFING

Govt investigating report of missing rice

Pattaya Mail : 06/August/2018

Thailand : The government has launched a probe into an allegation that 940,000 tons of pledged rice is missing following an uproar among social media users calling for responsible officers to be held accountable.

Director General of the Department of Foreign Trade, Adul Chotinisakorn said the investigation has been assigned to the Office of the Auditor General of Thailand. [Read more](#)

Cambodia's rice export down in 7-month period

Vietnam Plus : 07/August/2018

Cambodia : Cambodia's rice exports in the first seven months of this year reduced by nearly 6.3 percent year on year, or 18,837 tonnes, to 297,080 tonnes, according to statistics of the secretariat of the One-Window Service for Rice Export Formality.

The secretariat attributed the decrease to rice exporters in the region cutting export rice prices to enhance competitiveness.

However, the Ministry of Agriculture said the reduction in rice export is due to insufficient purchase of unmilled rice and limited rice reserves.

According to Hean Vahhan, director general of the general directorate of agriculture, as next month will be the main harvest time, rice export will pick up in the coming months. [Read more](#)

Thailand expected to export 11 million tons of rice this year

Myanmar to seek more emergency rice aid from ASEAN

Myanmar Time : 29/August/2018

Myanmar : Myanmar is considering seeking more assistance from the Association of Southeast Asian Nations (ASEAN) emergency rice reserve programme due to dwindling supply of the country's staple grain amid the onslaught of floods, U Myo Tint Tun, deputy permanent secretary from the Ministry of Agriculture, Livestock and Irrigation said on Monday [Read more](#)

Vietnam encounters barriers exporting rice to China

Vietnam.net : 08/August/2018

Vietnam : According to the Ministry of Agriculture & Rural Development (MARD), in July 2018, Vietnam exported 382,000 tons of rice, worth \$195 million, raising the total rice exports in the first seven months of the year to 3.9 million tons, worth \$2 billion.

Vietnam sells more rice to China, raising concerns

Vietnam.net : 15/August/2018

Vietnam : A group of Chinese businessmen led by the Chinese food association some days ago arrived in Mekong Delta, the Vietnam's largest rice granary, to discuss cooperation opportunities in rice trading.

Vietnamese businessmen have shown different reactions to the information.

Some extremists think it would be better to say 'no' to any offers from China, saying that Vietnamese should learn lessons from the tricks played by Chinese businessmen. [Read more](#)

This represented a 12.2 percent increase in quantity and 29.2 percent in value compared with the same period of 2017.

The average rice export price in the first half of 2018 was \$508 per ton, up 14.2 percent compared with the same period last year.

After a tough year in 2017, Vietnam's rice exports have bounced back since the beginning of 2018, increasing sharply in both quantity and value. [Read more](#)

Thai rice offered at lowest price in Iraq buying tender

Business Recorder : 13/August/2018

Thailand : The lowest offer in the international tender from Iraq's state grains buyer to purchase at least 30,000 tonnes of rice was \$449.50 a tonne c&f free out for rice to be sourced from Thailand, traders said. No decision about a purchase was believed to have been made in the tender, which closed on Sunday. Offers must remain valid until Aug. 16.

The lowest offer was made for 40,000 tonnes. Another offer for Thai rice was made at \$469.80 a tonne c&f free out, traders said. Most offers were made for rice from Uruguay, with the lowest price at \$568.75 a tonne c&f free out. [Read more](#)

Thailand diversifies rice production to retain global market share

Nikkei : 14/August/2018

Thailand : With production of its premium-grade fragrant rice declining, Thailand is looking to develop more varieties of the crop in order to compete with major exporters like Vietnam and India.

The Thai Rice Exporters Association has been trying to encourage farmers to diversify the strains they grow by paying them above the market rate for a soft, middle-grade product, which is in high demand in China and other major Asian markets, according to Charoen Loathamatas, the association's president. Rice exporters told to meet Chinese quality requirements as shipments slump

Vietnam News: 27/August/2018

Vietnam : To sustain their rice exports to China, a large buyer, Vietnamese firms need to focus on meeting food safety and traceability requirements and carry on official instead of border trade, according to experts.

According to the Department of Agro-product Processing and Market Development, Viet Nam's rice exports were estimated at 3.9 million tonnes worth nearly US\$2 billion over the first seven months of the year, a year-on-year increase of 12.2 per cent and 29.2 per cent.

China continued to be the biggest importer of Vietnamese rice, accounting for 26.8 per cent, followed by Indonesia (18.2 per cent) and the Philippines (10.4 per cent). [Read more](#)

Asian population growth drives rice demand

Vietnam News: 27/August/2018

Vietnam : GLOBAL rice consumption amounted to 518 million tonnes (Mt) in 2016 (in terms of milled rice weight), posting modest but robust gains from 2007-2016, according to the report "World: Rice - Market Report. Analysis and Forecast to 2025" published by IndexBox. The total consumption volume increased at an average annual rate of +1.4 per cent.

Over the period under review, global rice consumption reached its maximum volume in 2016, and is likely to continue its growth in the immediate term due to Asian population growth. In 2016, the countries with the highest consumption were China (29pc based on tonnes), India (19pc) and Indonesia (11pc), together comprising 59pc of total consumption. They were followed by India, Indonesia, Bangladesh, Vietnam, Myanmar, Thailand, Philippines, Brazil and Japan. [Read more](#)

Basmati rice millers in India offer higher price to farmers to cut use of chemicals

Economic Time : 04/August/2018

India : Amid tightening food safety regulations overseas, rice millers are offering cash incentives to Basmati growers in a bid to wean them away from using pesticides.

Farmers are being promised Rs 500 more per quintal of paddy for not using pesticides and fungicides that do not conform to latest global specifications, and also for limiting dosages of others, traders told ET. The incentive is expected to double for farmers in Jammu as harvest period draws closer. [Read more](#)

Confidence in rice sector amid floods

Phnom Penh : 22/August/2018

Cambodia : Insiders from the Kingdom's rice industry are not worried about this season's flooding despite the harm rising waters have done to crops in some areas of the country.

Cambodia Rice Federation (CRF) vice-president Hun Lak said it is collecting data on the impact the floods have had on the industry. He said despite the damage water has done in some places, other areas are already parched.

"We are still following up and keeping track of the data. Reports so far show the impact of flooding at paddy fields will not hit our export quotas," he said. [Read more](#)

Minister wants China to speed up quality checks of millers

Khmer Time: 06/August/2018

Cambodia : Only 26 rice millers, processors, and exporters passed the first round of inspection by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China (AQSIQ).

Since then, China has changed the process of inspection for rice importation and this has delayed the export process for the 40 new companies, Hean Vanhan, director-general of MAFF's General Directorate of Agriculture, said. [Read more](#)

More Than 1,000 Families in Cambodia Suffer After Flooding of Mekong River Tributary

Reliefweb: 22/August/2018

Cambodia : More than 1,000 families in northeast Cambodia's Stung Treng province are facing extreme difficulties after heavy rainfall led a tributary of the Mekong River to flood their commune for the third time in a month, according to residents, who said a controversial hydropower dam was to blame.

Pey Mey, a resident of Sesan district's Talat commune, told RFA's Khmer Service on Tuesday that the Sesan River had overflowed its banks for the third time since the end of July, forcing the families from five villages in the commune to evacuate to higher ground. [Read more](#)

Asean-China expo to boost demand for Cambodian agricultural goods

Khmer Time: 22/August/2018 [Read more...](#)

China : Cambodia will use the upcoming Asean-China trade fair to promote the country's main agricultural products in the Chinese market and boost trade with the East Asian giant, a local official said.

The 15th edition of the Asean-China Expo will take place next month in Nanning, in China's Guangxi region, with 90 local companies showcasing their products and services in 146 booths that have been reserved for Cambodian firms.

The trade fair will introduce a range of Cambodian products to Chinese consumers and increase sales abroad, particularly for agricultural goods, said Seang Thay, spokesman at the Ministry of Commerce, during a press conference yesterday. [Read more](#)

Oxfam uses blockchain to empower Cambodian rice farmers

Ledger Insight: 29/August/2018

Cambodia : Cambodian farmers lack negotiating power and often underprice their produce because they're under pressure to repay loans. One of the objectives is to ensure fair trade and reasonable payment. Hence if amounts paid by middlemen are recorded on a blockchain, the transparency will improve the farmers' bargaining position.

In 2012, Kalyan Mey, a senior advisor to Cambodia's Supreme National Economic Council, said that interest rates could reach a staggering 50%. [Read more](#)

Mobile app helps discern rice plants pests

Xinhua : 15/August/2018

China : A new mobile app, which can recognize rice plant pests, will soon be available for download after having passed rigorous tests, app developers in the eastern province of Anhui said Wednesday.

The app, co-developed by the Anhui Academy of Agricultural Sciences and the Institute of Intelligent Machines of the Chinese Academy of Sciences, can recognize more than 50 species of rice plant pests with a recognition rate exceeding 80 percent. Users can download the app on their mobile phones and identify the pests through a database by taking photos of insects and uploading the images. [Read more](#)

High-tech drones give Japan's ageing farmers a hand

TheNation : 24/August/2018

Japan : The next generation farmhand in Japan's ageing rural heartland may be a drone.

For several months, developers and farmers in north-east Japan have been testing a new drone that can hover above paddy fields and perform backbreaking tasks in a fraction of the time it takes for elderly farmers.

"This is unprecedented high technology," Isamu Sakakibara, a 69-year-old rice farmer told Bloomberg in the Tome area, a region that has supplied rice to Tokyo since the 17th century. [Read more](#)

Chines experts to train 40 Pakistani scientists on hybrid rice

TheNation : 02/August/2018

Pakistani : A group of Chinese hybrid rice experts would arriving Pakistan in September to impart training to Pakistani scientists for the promotion and development of hybrid seed varieties across the crop sowing areas of the country to boost local output.

In first phase a batch of 40 scientists selected all across the country would be trained to promote and develop the hybrid rice production technology in the country, said Member Plant Science of the Pakistan Agriculture Research Council (PARC) Dr Muhammad Yousuf.

He said that Pakistan and Chinese Government had signed a memorandum of understanding for the promotion of hybrid rice varieties in Pakistan as well as capacity building of local scientists in the field of hybrid rice. [Read more](#)
